Object Tracking Report

08 August 2026 01:28 PM

Tracking Summary

Detection Model	YOLO11
Tracking Algorithm	ByteTrack
Tracking Type	Multi Object
Unique IDs	Enabled

Tracked Objects Summary

Object	Count
Bus	88
Car	427
Truck	30
Person	12

About Object Tracking

This module performs multi-object tracking using **YOLO11** together with **ByteTrack**. Each detected object is assigned a unique tracking ID that remains consistent across consecutive video frames. This technology is useful for surveillance, traffic monitoring, crowd analysis and smart city applications.
